**CC** = Core Course , **AECC** = Ability Enhancement Compulsory Course , **GE** = Generic Elective , **SEC** = Skill Enhancement Course , **DSE** = Discipline Specific Elective , **CA**= Continuous Assessment , **ESE**= End Semester Examination , **TBD**=To be decided , **CT** = Core Theory, **CP**=Core Practical , **L** = Lecture, **T** = Tutorial , **P** = Practical , **MIL** = Modern Indian Language , **ENVS** = Environmental Studies ,

### **List of Core Course (CC)**

- CC-1: Introduction to Biological Anthropology
- CC-2: Introduction to Socio-cultural Anthropology
- CC-3: Archaeological Anthropology
- CC-4: Fundamentals of Human Origin and Evolution
- CC-5: Tribes and Peasants in India
- CC-6: Human Ecology: Biological & Cultural Dimensions
- CC-7: Biological Diversity in Human Populations
- CC-8: Theories of Culture and Society
- CC-9: Human Growth and Development
- CC-10: Research Methods
- CC-11: Human Population genetics
- CC-12: Anthropology in Practice
- CC-13: Forensic Anthropology
- CC-14: Anthropology of India

### **Discipline Specific Electives (DSE)**

- DSE-1: Physiological Anthropology
- Or
- DSE-1: Sports and Nutritional Anthropology
- DSE-2: Paleoanthropology
- Or
- DSE-2: Fashion Anthropology
- Or
- DSE-2: Anthropology of Health
- DSE-3: Tribal cultures of India
- OR
- DSE-3: Neuro Anthropology
- Or
- DSE-3: Demographic Anthropology
- DSE-4: Urban Anthropology
- Or
- DSE-4: Visual Anthropology
- Or
- DSE-4: Project Work

### **Skill Enhancement Course (SEC)**

- SEC-1: Public health and epidemiology
- Or
- SEC-1: Business and Corporate Anthropology
- SEC-2: Media Anthropology
- Or
- SEC-2: Tourism Anthropology

### **Generic Electives (GE)**

- GE-1: Nutrition and Health
- GE -2: Research Methodology
- GE-3: Tribes and Culture
- GE-4: Introduction to prehistoric Anthropology

## Core Courses

### **CC-1: Introduction to Biological Anthropology**

**Credits 06**

### **C1T :Introduction to Biological Anthropology**

**Credits 04**

#### **Unit 1**

Definition, Scope and sub-disciplines of Anthropology. History of Physical Anthropology and development of Modern Biological anthropology, aim, scope and its relationship with allied disciplines. Difference in the approaches of modern and traditional Biological Anthropology, with emphasis on human evolution and variation. Application of Biological anthropology in Human welfare and development.

#### **Unit 2**

History and development of understanding human variation and evolutionary thought. Theories of evolution.

1. Human variation and evolution: pre-19th and post-19th Century.
2. Theories of evolution. Lamarckism, Neo Lamarckism, Darwinism, Modern Synthetic theory, and Neutral theory of molecular evolution.

#### **Unit 3**

Non-human primates in relation to human evolution

1. Classification and characteristics of living primates, with suitable examples.
2. Outlines of comparative anatomy and behaviour of human and non-human primates
3. Significance of non-human primate study in Biological Anthropology.

#### **Unit 4**

Great divisions of humanity

1. UNESCO Statement on Race. Racism
2. Outline of racial classifications: (a) World Context : Deniker, Dixon, Haddon, Hooton, Eickstedt and Coon-Garn-Birdsell (b) Indian context: Risley, Guha and Sarkar

#### **Reference Books**

- Jurmain R., Kilgore L., Trevathan W., Ciochon R.L. (2012). Introduction to Physical Anthropology. Wadsworth Publ., USA
- Kroeber A. L. (1948). Anthropology. Oxford & IBH Publishing Co., New Delhi.
- Stanford C., Allen J.S. and Anton S.C. (2010). Exploring Biological Anthropology. The Essentials. Prentice Hall Publ, USA.
- Statement on Race: Annotated Elaboration and Exposition of the Four Statements on Race (1972). Issued by UNESCO. Oxford University Press.

### **C1P: Introduction to Biological Anthropology Lab**

**Credits 02**

#### **Anthropometry**

1. Maximum head length
2. Maximum head breadth
3. Minimum frontal breadth
4. Maximum bizygomatic breadth
5. Bigonial breadth

6. Nasal height
7. Nasal length
8. Nasal breadth
9. Physiognomic facial height
10. Morphological facial height
11. Physiognomic upper facial height
12. Morphological upper facial height
13. Head circumference
14. Stature
15. Sitting height
16. Body weight

### **Anthroposcopy**

1. Head form
2. Hair form
3. Facial form
4. Eye form
5. Nose form
6. Hair colour
7. Eye colour
8. Skin colour

### **Evolutionary Biology:**

Identification of Ape Cranium (Drawing and characteristics features):  
Gibbon, Orang, Chimpanzee, Gorilla

**CC-2: Introduction to Socio-cultural Anthropology****Credits 06****C2T: Introduction to Socio-cultural Anthropology****Credits 04****Unit 1**

Aim and Objectives of Social-Cultural Anthropology. Scope and relevance of Social-Cultural Anthropology. Relationship of Social-Cultural Anthropology with other disciplines. History of nomenclature.

**Unit 2**

Concepts and definitions of society and culture. Different types of Groups and Institutions. Society and community.

**Unit 3**

A study of Social Facts; Social System and Institution; Social Action, Social Stratification and Conflict.

**Unit 4**

Basic units of Society: Family; Marriage; Kinship system; Economic Organization; Political Organization; Religious practices.

**C2P: Introduction to Socio Cultural Anthropology Lab****Credits 02****Methods and Techniques of Social Anthropology**

The practical will include the following principal methods and techniques in collection of data in Social Anthropology.

1. Observation
2. Interview
3. Questionnaire and Schedule
4. Case study
5. Life history

**CC- 3 : Archaeological Anthropology**

**Credits 06**

**C3 T: Archaeological Anthropology**

**Credits 04**

**Introduction to Archaeological Anthropology**

1. Definition and scope of archaeological anthropology
2. Relation with other disciplines
3. Methods of studying archaeological anthropology

**Methods of Estimation of Time and Reconstruction of the Past**

1. Absolute dating methods ( $c^{14}$ , K-Ar, TL, Dendrochronology, Palaeomagnetism)
2. Relative dating methods (Stratigraphy, FUN estimation)
3. Methods of climatic reconstruction: palynology, paleontology, soil pH estimation.

**Geochronology of Pleistocene Epoch**

1. Glacial and Interglacial
2. Pluviation and Inter Pluviation
3. Different types of geoclimatic events

**Understanding Culture**

1. Technique of tool manufacture and estimation of their relative efficiency
2. Classification of tools: primary and combination fabrication techniques
3. Typology and cultural nomenclature
4. Palaeolithic, Mesolithic and Neolithic Culture of Europe and India.

**Earliest Evidence of Culture in the World**

1. Konso, Ologesailie, Olduvai Gorge, Stellenbosch.
2. Pirro Nord, Dmanisi, Alpuerca, Patjitanian, Choukoutien, Anyathian.
3. Soan, Kortalayer Valley, Narmada, Bhimbetka.

- Sankalia H.D. (1964). Stone Age Tools. Poona Deccan College

**C3 P : Archaeological Anthropology (Lab)**

**Credits 02**

**Typo-technological Analysis of Prehistoric Tools**

Identification, Interpretation and Drawings of the tool Types

1. Core Tool Types – any three Chopper, Hand axe, Cleaver.
2. Flake Tool Types – any two Scrapers, Points.
3. Blade Tool Types – any two Knife, Blade, Burin.
4. Microlithic Tool Type – any two Triangle, Lunate, Trapeze.
5. Neolithic Tool Type – any two Axe, Adze, Chissel, Ringstone.
6. Bone Tools – Barbed Harpoon, Lance point, Baton-de-commandmen

**CC-4: Fundamentals of Human Origin and Evolution****Credits 06****C4 T: Fundamentals of Human Origin and Evolution****Credits 04****Unit 1**

Primate origins and radiation with special reference to: Parapithecus, Ramapithecus, Dryopithecus, Sivapithecus and their distribution, features with their phylogenetic relationships

**Unit 2**

1. Australopithecines: distribution, features and their phylogenetic relationships.
2. Appearance of genus Homo (Homo habilis) and related finds.

**Unit 3**

The origin of Homo sapiens: Fossil evidences of Neanderthals and Archaic Homo sapiens

**Unit 4**

The origin of Homo sapiens: Fossil evidences of Neanderthals and Archaic Homo sapiens

**Unit 5**

Origin of anatomically modern humans (Homo sapiens sapiens): Distribution and features  
Brief outline of the models of human origin: Out-of-Africa and Replacement model

**Unit 6**

Hominisation process, Biology and culture Co-evolution

**Reference Books**

**C4 P : Fundamentals of Human Origin and Evolution (Lab)****Credits 02****List of Practical**

1. Craniometry
  - a) Maximum Cranial length and breadth
  - b) Maximum bizygomatic breadth
  - c) Maximum frontal breadth

- d) Minimum frontal breadth
- e) Nasal height and breadth
- f) Bi-Mastoid Breadth
- g) Greatest occipital breadth
- h) Upper facial height
- i) Cranial index
- j) Nasal index

2. Osteometry: Measurements of long and flat bones: (Any three)  
Lengths, minimum/least circumference and caliber index

3. Identification of casts of fossils of family hominidae: Drawing and comparison of characteristics

**CC-5: Tribes and Peasants in India****Credits 06****C5T: Tribes and Peasants in India****Credits 04****Anthropological Concept of Tribes**

1. Problems of nomenclature, definition and classification.
2. Characteristics of Tribal Societies of the world in general. Features of tribes in India.

**Tribes and Wider world**

1. The history of tribal administration; Constitutional safeguards
2. Draft National Tribal Policy, Issues of acculturation assimilation and integration. Impact of development schemes and programme on tribal life

**Anthropological Concept of Village**

1. The concept of peasantry.
2. Approaches to the study of peasants – economic, political and cultural.
3. Characteristics of Indian village: social organization; economy and changes.
4. Caste system and changes.

**Ethnicity and Identity Issues**

Ethnicity issues: Concepts of Ethnicity and Ethnic Identity; Tribal and peasant movements; Identity issues

**Reference Books**

- Wolf E. (1966). Peasants. NJ, Prentice Hall.

**C5P: Tribes and Peasants in India Lab****Credits 02****Reading of Ethnography**

Students are required to read and analyse any two of the ethnographies (as listed in the reference section) and prepare a report based upon it. The report should clearly link up the study with the concept of tribe and peasantry and delineate clearly the concept used in the text.

1. Research questions/objectives of the study and their relevance.
2. Theoretical schema.
3. Methods and techniques used in the study.
4. Key findings and their significance in the context of the objectives of the study.

5. Critical analysis of the finding on the basis of contemporary available resources.

**List of Ethnographies**

- Walker A. (1986). The Todas. Delhi: Hindustan Publishing Corporation
- Verrier Elwin (1992). The Muria and their Ghotul. USA: Oxford University Press.
- Malinowski M. (1922). Argonauts of the Western Pacific. London: Routledge and Kegan Paul Ltd.
- Furer-Haimendorf C.V. (1939). The Naked Nagas. London: Methuen and Co.

**CC-6: Human Ecology: Biological & Cultural Dimensions**

**Credits 06**

**C6T: Human Ecology: Biological & Cultural Dimensions**

**Credits 04**

**Biological Dimensions**

1. Concepts in Ecology: Definition, eco-sensitivity adaptation, acclimation, acclimatization, biotic and abiotic component.
2. Methods of studying human ecology.
3. Adaptation to various ecological stresses; Ecological rules and their applicability to human populations.
4. Impact of urbanization and industrialization on Man

**Cultural Dimensions**

1. Culture as a tool of adaptation; various modes of human adaptation in pre-state societies.
  - a. Hunting and food gathering
  - b. Pastoralism
  - c. Shifting cultivation
2. Ecological themes of state formation:
  - a. Post Pleistocene Cultural Adaptation (Mesolithic)
  - b. Neolithic revolution,
  - c. Indus Valley Civilization, Egyptian Civilization.
3. Agriculture and peasantry; Civilization and growth of urban and industrial societies

**Reference Books**

**Biological Dimension - Size and Shape measurements**

1. Stature
2. Sitting Height
3. Body Weight
4. Total upper extremity length
5. Total lower extremity length
6. Nasal breadth
7. Nasal height
8. Bi acromian diameter
9. Bi-Iliac diameter

**Biological Dimension - Size and Shape indices**

1. Body Mass Index
2. Ponderal Index
3. Relative sitting height
4. Relative upper extremity length
5. Relative total lower extremity length
6. Nasal index

**Cultural Dimensions**

Research Project on Biological and Culture aspects with reference to any environmental issues.

**CC-7: Biological Diversity in Human Populations**

**Credits 06**

**C7T: Biological Diversity in Human Populations**

**Credits 04**

**Unit 1**

Concept of Biological Variability: Race/Ethnic Groups  
Hardy-Weinberg equilibrium. Major evolutionary forces for Genetic Variation Genetic Polymorphism (Serological, Biochemical and Molecular markers – Out line);  
Concept of Human Adaptation and Acclimatization (Out line). Examples from High Altitude and Cold Adaption. Concept of Allen's, Bergman's and Glaser's rule

**Unit 2**

Contribution of Risley, Guha, and Sarkar towards understanding ethnic elements in the Indian populations and its criticism.

**Unit 3**

Pre and Proto historic racial / ethnic elements in India.  
Linguistic classification of Indian population (Out line)

**Unit 4**

Role of Bio-cultural Factors  
Cultural Biology; Bio-cultural factors influencing the diseases and nutritional status. Evolution of Human diet, biological perspectives of ageing process among different populations.

**Unit 5**

Demographic Perspective  
Concept of Demographic Anthropology;  
Sources of Demographic Data,  
Demographic Processes,  
Demographic profile of Indian populations and its growth structure;  
Concept of Inbreeding and Consanguinity – Biological consequences of inbreeding

**Unit 6**

Genetic diversity among Indian Population

### **C7P: Biological Diversity in Human Population Lab**

**Credits 02**

#### **List of Practical**

##### **Quantitative traits: Anthropometric measurements**

- |                                 |  |
|---------------------------------|--|
| 1. Stature                      |  |
| 2. Sitting Height               |  |
| 3. Body Weight                  | 1. Body Mass Index                       |
| 4. Total upper extremity length | 2. Ponderal Index                        |
| 5. Total lower extremity length | 3. Relative sitting height               |
| 6. Nasal breadth                | 4. Relative upper extremity length       |
| 7. Nasal height                 | 5. Relative total lower extremity length |
| 8. Bi acromian diameter         | 6. Nasal index                           |
| 9. Bi-Iliac diameter            |  |

##### **Polymorphic trait/Markers:**

ABO Blood Group (as natural antigens), RhD Blood groups (as immune antigens) at least ten participants (using standard techniques).

Concept of ABO blood group subtypes and Rh Blood group haplotypes

##### **Polygenic trait**

Concept of Dermatoglyphics in Population Variation.

Collection of Finger Prints (Five Participants)

Analysis and interpretation of basic finger pattern types [Whorl, Loop (Ulnar and Radial) and Arch] Indices: Dankmeijer Index, Furuhashi's Index and Pattern Intensity index (basic comparison) Collection and interpretation (Fertility Rate, Mortality Rate) of demographic data obtained from primary or secondary sources.

**CC-8: Theories of Culture and Society****Credits 06****C8T: Theories of Culture and Society****Credits 04****Unit 1**

Emergence of Anthropology: Interface of Enlightenment with evolutionary Biology, Society and Colonialism. changing perspectives on Evolutionism, Diffusionism and Culture area theories

**Unit 2**

Emergence of fieldwork tradition: Evolutionism, Diffusionism and Historical Particularism, American Cultural Tradition

**Unit 3**

Making Anthropology a Science: Durkheim and Social Solidarity, Functionalism, Structural-functionalism and British Social Anthropology. Concepts of Social Structure and Social Organization.

**Unit 4**

Anthropology's Cognitive Adventure: Structuralism

**Unit 5**

Symbolic and Interpretative approaches

**Unit 6**

Cultural Relativism and Ethnocentrism

**Reference Books:**

- Applebaum H.A. (1987) Perspectives in Cultural Anthropology. Albany: State University of New York.

**C8 P: Theories of Culture and Society Lab****Credits 02****List of Practical**

As a part of the practical following exercises will be undertaken by the students so as to enable them to connect the theories they learn with things of everyday living.

1. To identify a topic relating to contemporary issue and formulate research questions and clearly identify the theoretical perspectives from which they are derived.
2. Identification of variables of a study.
3. Various types of hypotheses.
4. Formulation of hypothesis.
5. Distinction between hypothesis testing and exploratory research.
6. Identification of universe and unit of study with justifications.

7. Choice of appropriate research technique and method in the context of theoretical framework.
8. Data collection and analysis

**CC-9: Human Growth and Development****Credits 06****C9T: Human Growth and Development****Credits 04****Unit 1**

Concept of human growth, development, differentiation and maturation.

**Unit 2**

Outlines of Prenatal and postnatal growth. Concepts of general growth curve (Scammon's growth curve), Concepts of Growth curve (Distance and acceleration). Ethnic and Sex differences in growth, Concept of secular trend

**Unit 3**

Concept of Methodology of growth study: Longitudinal, Cross section and mixed longitudinal

Concept of factors affecting growth: genetic, social, and ecological factors

Significance/ applicability of growth studies (Outline)

**Unit 4**

Nutritional epidemiology-concept of Food, Nutrition and Diet

Concept of under nutrition and over nutrition with reference to Kwashiorkor Marasmus and obesity

Concept of Stunting and Wasting

Assessment of nutritional status (Outline of the utilization of Anthropometry)

**Unit 5**

Concept of Human physique and body composition – models and techniques; gender and ethnic differences

**Unit 6**

Concept of Somatotyping and interpretation of human physique with reference to Sheldon, Heath and Carter methods

**Unit 7**

Bio-cultural adaptation to environmental stresses: Concepts of Homeostasis and thermoregulation, ecological rules and their applicability among human beings

**Reference Books**

### **C9P: Human Growth and Development Lab**

**Credits 02**

#### **List of Practical**

1. Evaluation of Growth status: Anthropometry (stature, body weight, mid upper arm circumference, chest circumference, head circumference), assessment of chronological age, percentile, z-score, height for age, weight for age, BMI for age
2. Obesity assessment: General obesity : BMI, Conicity index. Regional adiposity: WC, HC, WHR, WHtR)
3. Estimation of body composition : Percent body fat skinfold thickness and bioelectric impedance analysis
4. Nutritional assessment through dietary pattern and anthropometric indices

**CC-10: Research Methods**

**Credits 06**

**C10T: Research Methods**

**Credits 04**

### **Research Design**

Types of Researches in Anthropology – Quantitative, Qualitative, and Mixed. Review of literature, conceptual framework, formulation of research problem, formulation of hypothesis, sampling, tools and techniques of data collection, data analysis and reporting, guiding ideals and critical evaluation of major approaches in research methods, basic tenets of qualitative research and its relationship with quantitative research.

### **Field work tradition in Anthropology**

Ethnographic approach, contribution of Malinowski, Boas and other pioneers; cultural relativism, ethnocentrism, etic and emic perspectives, comparative and historical methods, techniques of rapport establishment identification of representative categories of informants, maintenance of field diary and logbook

Tools and techniques of data collection

Concept of survey, relationship of survey method with ethnographic method, construction of questionnaire and interview schedule, validation and internal consistency of questionnaire Observation - Direct, Indirect, Participant, Non-participant, Controlled Interview - Structured and unstructured, Focussed Group Discussion, key informant interview

Case Study and life history

Genealogy - Technique and application

### **Ethics and Politics of Research**

1. Identify, define, and analyze ethical issues in the context of human subject research.
2. Reasons for conducting ethical review of research, Ethical importance of consent, privacy and confidentiality in research
3. Ethical importance of consent, privacy and confidentiality in research
4. Issues of academic fraud and plagiarism, conflicts of interest, authorship and publication

### **Analysis and Writing Up**

1. Chapterization, preparing a text for submission and publication, concepts of preface, notes (end and footnotes), glossary, prologue and epilogue, appendix, bibliography (annotated) and references cited, review and index.
2. Similarities and differences between qualitative and quantitative data analysis; introduction of software for data analysis.

### **Bio-Statistics**

1. Types of variables, presentation and summarization of data (tabulation and illustration).
2. Descriptive statistics- Measures of Central Tendency, Measure of Variation, Skewness and Kurtosis, Variance and standard deviation, Normal and binomial distribution.
3. Tests of Inference- Variance ratio test, Student's 't' tests, Chi-square test and measures of association, Analysis of variance, Estimation of confidence interval, Correlation, Regression Analysis, Study design issues: Sample size and Power,

#### 4. Pedigree Analysis- Importance and implication.

#### C10P: Research Methods Lab

Credits 02

#### List of Practical

1. Construction of Genealogy.
2. Observation: Direct, Indirect, Participant, Non-participant, Controlled
3. Questionnaire and Schedule, Interview- Unstructured, Structured, Key informant interview, Focussed Group Discussion, and Free listing, pile sorting
4. Case study and life history
5. Project report writing: preparation of research problem, study design, data collection techniques, analysis and report writing based on somatometric, dermatoglyphic and serological data or any contemporary social problem.

**CC-11: Human Population genetics**

**Credits 06**

**CC11T: Human Population genetics**

**Credits 04**

### **Basic Genetics**

Outline of the landmarks in the history of genetics,

Principles in human genetics,

Mendelian Laws: Mendelian inheritance in man. Penetrance and expressivity

Outline of Quantitative genetics, quantitative/complex inheritance, multifactorial and polygenic inheritance, Multiple alleles, Co-dominance.

Outline of the methodology human genetics: Family method, Twin Method, Cytogenetics, Population genetics

Exceptions to Mendelian Inheritance: Outline: Linkage (Sex linkage and sex influenced traits), Epistasis and genomic imprinting

### **Ecological Genetics and Polymorphism**

Concept of Phenotype and Genotype

Genetic Polymorphism: transient polymorphism and balanced polymorphisms (Sickle cell trait and Malaria) Association of Polymorphism: Relationship of Communicable disease and non communicable disease with Blood groups.

### **Equilibrium of allele frequency: Hardy-Weinberg principle**

Genotype and allele frequencies,

Concept of Hardy-Weinberg equilibrium, its applications and alternation in evolutionary perspective

### **Dynamics of Allele Frequency: Evolutionary Forces**

Mutation, selection (pattern and mechanism), Genetic drift (bottle neck and founder effect), Gene flow/migration, inbreeding (inbreeding co-efficient and its genetic consequences)

### **Population structure and admixture in human populations**

Concept of Random and non-random mating (positive and negative assortative mating), heritability, linkage disequilibrium,

Concept of genetic markers utility: heterozygosity (Polymorphism Information Content), Forensic Anthropology, Disease association.

### **Human evolutionary genetics**

Concept of Evolutionary Development (Evo-Devo), Outline of Evolutionary Biology. From Mendel to molecules: A brief history of evolutionary genetics. Human-Ape comparisons.

### **C11P: Human Population Genetics Lab**

**Credits 02**

#### **List of Practical**

1. Blood group typing- ABO blood group (A<sub>1</sub>, A<sub>2</sub>, B, O), MN Blood Group and Rh (D) (At least 10 participants. Allele frequency estimation. Heterozygosity score. Testing of Hardy Weinberg equilibrium.
2. Color Blindness: Deutan and Protan type. Estimation of carriers. Estimation of male female ratio (at least 20 participants)
3. Identification of Sex Chromatin (Inactivated X Chromosomes): one male and one female, 50 cells each
4. PTC taste testing ability: At least 20 participants. Allele frequency estimation.

**CC-12 :Anthropology in Practice**

**Credits 06**

**C12T: Anthropology in Practice**

**Credits 04**

**Academic Anthropology**

Academics and Practitioners: Differences, Structure, Activities, Controversies and Issues: Applied Anthropology, Action Anthropology and Development Anthropology.

**Role of Anthropology in Development**

Anthropology and Public Policy, Need Assessment and Community Development, Anthropology of NGO's, Management Anthropology, Environment and Community Health, Social and economic sustainability, Cultural resource management

**Future Dynamics in Anthropology**

Trends in Anthropology: Anthropology of Tourism, Anthropology In Census operation; Designing And Fashion, Visual Anthropology

**Constitutional Perspective and Human Rights**

Constitutional Provisions, Evaluation, Planning and Development of Indian Populations; Human Rights, Interrelationships of rights and duties: Harmony and Conflict, Protection and enforcement of human rights and duties, National and State Human Rights Commission and other grievance redressal mechanism, Human rights of special category and marginal groups, Emerging trends of human rights respective to terrorism, environment and globalization

**Biosocial anthropology in practice**

Bio-social elements of human development at national and international level, application of conceptual framework of Forensic Anthropology in judicial settings both criminal and civil, Population Dynamics and relationship between population growth and various aspects of culture such as means of subsistence, kinship, social complexity, social stratification and political organization, Bio-social counselling of an individual or population

## **C12 P: Anthropology in Practice Lab**

**Credits 02**

### **List of Practical**

1. Write a project on constitutional provisions or evaluation of any development project/report.
2. Write a project on Religious Tourism / Tribal Tourism / Health Tourism / Fashion / Human Rights / Ecotourism.
3. Write a project on the demographic profile from secondary data.
4. Collect data on bio-social problem and design counselling and give the analysis and interpretation.

**CC-13: Forensic Anthropology**

**Credits 06**

**C13T: Forensic Anthropology**

**Credits 04**

**Unit 1**

Introduction to Forensic Anthropology: Definition, Brief History, Scope, Applications and Integration of Forensic Anthropology.

**Unit 2**

Basic Human Skeletal Biology, Identification of Human and Non-Human Skeletal Remains, Ancestry, age, sex and stature estimation from bones, Discovery and Techniques for recovering skeletonized Human Remains.

**Unit 3**

Personal Identification, Complete and Partial Identification, Methods of Identification in Living Persons: Anthropometry, Anthroposcopy, Occupational Marks, Scars, Bite Marks, Tattoo Marks, Fingerprints, Footprints, Lip Prints, Nails, Handwriting, Deformities and Others.

**Unit 4**

Serology: Outline concept of identification and personal identification of bloodstain, urine, semen and saliva. Interpretation of patterns of bloodstains (concept only)

**Unit 5**

Individualization: Forensic Odontology-Tooth Structure and Growth, Bite Marks, Facial Reconstruction, DNA Profiling.

**Reference Books**

**C13P: Forensic Anthropology Lab****Credits 02****List of Practical**

1. Study of Human. Estimation of age, sex and stature from bones: Concept on Skull, long bones and pelvic girdle
2. Anthropometry and Anthroposcopy Observation on living persons.
3. Identification of bloodstain, urine, semen and saliva.
4. Examination of Fingerprints: Concept of Latent Print identification. Finger Print matching (Concept of minutiae)

**CC- 14: Anthropology of India****Credits 06****C14T: Anthropology of India****Credits 04****Unit 1**

1. Origin, history and development of Anthropology in India, approaches to study Indian society and culture- traditional and contemporary
2. Racial and linguistic elements in Indian population
3. Understanding the diversity of Indian social structure - concept of Varna, Jati, Caste, Ashram or purusharatha, gender hierarchies - their economic and cultural impact, origin and evolution of social structures and their underlying philosophies.

**Unit 2**

1. Critical appraisal of contribution of Risley, Guha and Sarkar towards understanding ethnic distinctness in the Indian populations
2. Contribution of contemporary biological, social and archaeological anthropologists in India.

**Unit 3**

1. Aspects of Indian Village –social organisation, agriculture and impact of market economy on villages
2. Tribal situation in India- biogenetic variability, linguistic and socio-economic characteristics; Problems of tribal peoples, land-alienation, indebtedness, lack of educational facilities, shifting-cultivation, migration, forests and tribal unemployment, health and nutrition, tribal movement and quest for identity
3. Developmental projects- tribal displacements and rehabilitation problem
4. Impact of culture-contact, urbanization and industrialization on tribal and rural population
5. Basic concepts -Great tradition and little tradition, sacred complex, Universalization and parochialization, Sanskritization and Westernization, Dominant caste, Tribe-caste continuum, Nature-Man-Spirit complex, pseudotribalism,

**Unit 4**

1. Problems of exploitation and deprivation of scheduled caste/ tribe and Other Backward Classes.
2. Constitutional safeguards for the Scheduled caste and scheduled tribes.

### **C14P: Anthropology of India Lab**

**Credits 02**

#### **List of Practical**

1. Identify various traits/variables which can be used in racial classification and comment on its relevance.
2. Review a book/edited volume on Indian social structure such as caste, religion, tribe or rural population and give its salient features.
3. Explore the biological diversity of any population group considering a minimum of five genetic traits.
4. Highlight the contributions of any two contemporary Indian anthropologists

## Discipline Specific Electives (DSE)

**DSE-1: Physiological Anthropology**

**Credits 06**

**DSET1: Physiological Anthropology**

**Credits 04**

### **Theory**

**Unit I:** Fundamentals of work physiology- homeostasis; metabolism and energy and systems; exercise, respiratory system and haemodynamics (blood pressure, pulse rate, heart rate and oxygen- transporting system, blood flow ,Hb, heamatocrit etc)

**Unit II:** Acute physiological adjustments during transition from resting homeostasis to sub-maximal and maximal exercise; chronic physiological adaptations to exercise training; age, sex and population variation in the physiological characteristics

**Unit III:** Cardio-vascular and respiratory endurance, physical working capacity and physical fitness- evaluation of response and assessment; relationship of body measurements with cardio-vascular and respiratory functions, aerobic and anaerobic exercise training, health related fitness in gender and ethnic group. Principles of effective physical conditioning techniques

**Unit IV:** Impact of smoking, alcohol, drug, pollution and occupation on cardio-respiratory functions; physical performance and environmental stress, chronic diseases, malnutrition, lifestyle disease

**Unit V:** Factors affecting physical performance and capacity, relation between physique, body composition, nutrition and performance.

**Unit VI:** Ageing and health related aspects of exercise

**DSE1P: Physiological Anthropology Practical**

**Credits 02**

1. Cardiovascular function (Blood pressure, heart rate, pulse rate)
2. Respiratory function (Tidal volume, vital capacity, forced vital capacity, minute ventilation etc.)
3. Haemoglobin estimation
4. Step-test
5. Treadmill test

**OR**

**DSE-1. Sports and Nutritional Anthropology**

**Credits 06**

**DSET1. Sports and Nutritional Anthropology**

**Credits 04**

**Theory**

**Unit I:** Anthropology of sports- Physical fitness, component of physical fitness

**Unit II:** Physical conditioning, training-techniques and physiological effects, environmental effects on physical performance: effect of heat stress, cold stress and high altitude on physiological response and performance.

**Unit III:** Body composition and Athletes, sports selection and monitoring

**Unit IV:** Human biological variability, health and nutrition; doping and performance; cultural constructions and physiologic implications of food across time, space and society; an integrated bio-behavioural perspective towards food preference.

**DSE1P: Sports and Nutritional Anthropology Practical Credits 02**

1. Assessment of daily nutrient intake
2. Evaluate association of nutritional status and physical performance
3. Demonstrate cultural perspective for preference of specific food of a population

**Suggested Readings**

- Stinson S. (1992). Nutritional Adaptation. Annual Review of Anthropology 21:143- 170.
- Brughart R. (1990). The Cultural Context of Diet, Disease and the Body. In Diet and Disease in Traditional and Developing Societies. GA Harrison and JC Waterlow, eds. P. 307-325. Cambridge University Press. Cambridge.

**DSE-2: Paleoanthropology****Credits 06****DSET2. Paleoanthropology****Credits 04**

**Unit I:** Dating methods, geological time scale, taphonomy and interpretation of the paleontological and archaeological records, taxonomic and chronological problems of fossils records.

**Unit II:** Primate speciation and extinctions: a geological perspective, adaptive primate radiation, differential rate of somatic evolution.

**Unit III:** Evolutionary biology: Origins and evolution of stone age technology (Human origins: Development, distribution and fossilized evidence of Australopithecines, Paranthropus (Zinjanthropus), Homo habilis, Homo erectus, Archaic H. sapiens, prehistoric hunter-gatherers, modern pastoral communities, emergence of prehistoric people in Africa).

**Unit IV:** Primate and Non-Primate Models for Early Hominid Behaviour; hominization process- Evolution of hominid-human bipedalism

**Unit V:** Palaeodemography- reconstruction of population patterns from skeletal analysis, determination of demographic variables in prehistoric populations and post-neolithic population growth, theory and techniques in paleodemography, methodological issues for reconstructing demographic structure, demographic models of mortality and their interpretation

**Unit VI.** Palaeopathology- bioarchaeological approach of disease; effects of agriculture, urbanization and slavery on health and disease; colonization and disease with special emphasis on the New World; dispersion of modern humans - molecular and morphological patterns of relationship

**DSE2P: Paleoanthropology (Practical)****Credits 02**

1. Comparative primate osteology
2. Description and identification of the disarticulated skeleton of non-human primates
3. Identification and description of fossil casts
4. Excursion to a site for seven days for collection of fossil material and its report

**Suggested Readings:**

**Credits 04**

### **Theory**

**Unit-I.** Introduction: Fashion, Consumption, and Anthropology: From Evolution to Compassionate Consumption, the Rise and Fall of Evolution in Dress

**Unit II:** Theoretical and Ethnographic Approaches to Understanding Fashion and Consumer Society

**Unit III :** Colonialism, Dress, and Identity Colonialism, Consumption, and Civilizing Fashion Anti-colonial Dress, Clothing Debates in Burma and Africa

**Unit IV:** Race and Fashion: The 1980s "Japanese Invasion" and 1990s "Asian Chic" Alternative Approaches to Consumerism

**Unit V:** Gender, Fashion and Consumption in different Human societies, application of fashion in traditional and modern societies, role of religion in fashion.

**Unit VI:** Globalization and Dress, leather cosmetic relationships, relationship of tribal clans with reference to embroidery color and designs in ethnic group of India.

**DSE2P: Fashion Anthropology (Practical)**

**Credits 02**

1. Identification of Pattern making Garment construction and color dynamics.
2. Sewing and Clothing manufacture practical.
3. Surface ornamentation, Textile crafts and Accessories Design in different ethnic group
4. A comparison of Computer aided design versus traditional designs

**OR**

**DSE-2: Anthropology of Health**

**Credits 06**

**DSE2T: Anthropology of Health**

**Credits 04**

**Unit-1: Introduction and Overview of the Field of Anthropology & Health.**

**A. Health Anthropology within the Context of Anthropology.**

1. Anthropology and its subfields
2. The unique place of Health anthropology in anthropology
3. Competing perspectives on the study of anthropology of health.

## **B. Defining Health and Illness in Cross-Cultural Perspective.**

Looking at “health,” “illness,” and related concepts in Western culture, including sociological “sick role” models, Some important variations in the process of seeking health care.

### **Unit – 2: Measuring Health: Morbidity, Mortality, and Epidemiology**

Morbidity, Mortality, Epidemiology: Meaning, scope and methods. Epidemiology of common communicable diseases: Malaria, Tuberculosis, Leprosy, Diabetes, Cardiovascular disease and Sexually Transmitted Diseases (STDs), HIV/AIDS,

### **Unit – 3: Women’s Health, Sex, Family Planning, and Maternal-Infant Health.**

Reproductive life, child Birth, Family planning adoption, male dominance, Nursing and early nurture, hyper-menstruation and its corollaries. Population variation and its relation to health and disease.

### **Unit – 4: Chronic Disease, Injury, Stress, and Mental Health**

Effect of Chronic Disease in Health, Relationship between mental health, chronic disease, and injury, Understanding Stress and Its Effects Cross-Culturally, Mental Disorders and Related Phenomena, diseases associated with specific sociocultural and environmental contexts: Kuru, osteomalacia, sickle cell anaemia. Adaptations to Health Threats: Genetic Vulnerability and Resistance & Environment, Developmental and Cultural Adaptations to adverse Conditions.

### **Unit – 5: Variations in Health Care Systems: A Comparative Perspective.**

Health promotion and health care delivery programmes. Family welfare programmes. Child health and nutrition programmes. Reproductive health awareness.

### **Unit – 6: Healing and Healers in Cross-Cultural Perspectives.**

#### **A. Shamanism, Magic, and Healing.**

Shaman, Magic, Witchcraft and Sorcery,

#### **B. Folk Healers and “Alternative Medicine.”**

Types of healers and healing, Problems in evaluating efficacy, Sources of dissatisfaction with mainstream medicine.

### **Unit – 7: Health and Human Rights**

Introduction to Human rights, Development of a Human Rights Impact Assessment for the Formulation and Evaluation of Public Health Policies.

### **Unit – 8: Legal Aspects & Future Prospects for Health**

Rules and regulations of international health policy, Medico- Legal Problems in relation to health administration, International health organization / NGOs, Medical Ethics, Critical issues in global health.

## **DSE2P: Anthropology of Health Practical**

**Credits 02**

1. Make a Schedule on Health and Demography.

2. Calculation of Infant Sex ratio, Fertility rate, Total fertility rate, Mortality rate, Birth rate, crude birth rate, crude death rate, Mortality rate, life expectancy, immigration rate, population growth rate.
3. Identification and Characteristics of Various diseases.
4. Case Studies of Traditional and Modern healers.

**OR****DSE-3: Demographic Anthropology****Credits 06****DSE3T: Demographic Anthropology  
Theory****Credits 04**

**Unit I:** Demographic Anthropology

1. Introduction, definition and basic concepts

2. Relationship between demography, population studies and anthropology
3. Importance of population studies in Anthropology

**Unit II:** Population Theories

1. John Graunt
2. Thomas R. Malthus
3. Biological theory of population
4. Theory of demographic transition

**Unit III:** Tools of Demographic Data

1. Measures of population composition, distribution and growth
2. Measures of fertility
3. Measures of mortality
4. Measures of migration

**Unit IV:** Population of India

1. Sources of demographic data in India
2. Growth of Indian population
3. Demography of Indian tribal and non-tribal groups
4. Anthropological determinants of population growth
5. Impact of urbanization on the migration of tribal groups

**Unit V:** National policies

1. National Population Policy
2. National Health Policy
3. National Policy on Reproductive Health Care

**DSE3P: Demographic Anthropology  
Practical**

**Credits 02**

A student will collect and compile demographic data from different secondary sources on any given topic by the concerned teacher and a project report will be submitted for its evaluation.

**Suggested Readings**

OR

**DSE-4. Visual Anthropology**

**Credits 06**

**DSE4T. Visual Anthropology**

**Credits 04**

**Theory**

**UNIT 1:** Introduction to Visual Anthropology. Visual Culture. Photographic and Digital Media: Still, Interactive and Moving.

**UNIT 2:** Theory and Representation. Anthropology and Images: Ethnophotography and ethnographic films and mass media. Theories of representation, modern media and political advocacy.

**UNIT 3:** Early Ethnographic Photography: Contexts and Trends. Anthropology of Art and Aesthetics: Critical reflection on the relation of images, objects and persons. Objects and images from other societies valued as 'art'.

**UNIT 4:** Ethnographic Photography: Conventions and Methodologies. Paradigms and Debates.

**UNIT 5:** Ethnographic Films: Theoretical issues concerning ethnographic film, ethical dimensions of ethnographic film, Interdependency of technology and culture.

**UNIT 6:** Cinema Studies with emphasis on key feature, documentary and ethnographic films with a focal theme - the examination of the 'language of film'.

**DSE4P: Visual Anthropology**

**Credits 02**

**Practical**

This paper deals with analysis of visuals such as photographs and films pertaining to cultural practices dealing with institutions of religion, economy and politics.

**Theory and Representation:** Anthropology and Images: Ethnophotography and ethnographic films and mass media. Theories of representation, modern media and political advocacy.

**Anthropology of Art and Aesthetics:** Critical reflection on the relation of images, objects and persons. Objects and images from other societies valued as 'art'.

**Ethnographic Film and Cinema Studies:** This unit consists of screenings followed by seminars. The emphasis will be on key feature, documentary and ethnographic films with a focal theme- the examination of the 'language of film'.

**Practical Implications:** Explore traditional and experimental means of using visual and audiovisual media to research, represent and produce anthropological knowledge. Critical engagement with policy and the use of audio-visual and internet based media in advocacy

and activism. The students are required to do the following exercises:

1. Basic principles of producing ethnographic films: text and its focus, camera angles, lighting and decision making behind the camera.
2. Analyze the visual data from classical ethnographies signifying how 'otherness' is constituted.
3. A gendered analysis of visuals produced during colonial and postcolonial times.
4. Hypertext and multimedia as analytic end points.
5. Collection, reporting and analysis of photo-ethnographic data.
6. Digital mirror: computer assisted exercises leading to production of ethnographic text.

**OR**

**DSE-4: Project Work**

**Credits 06**

Student will opt either dissertation or project work or one paper from the elective discipline course . He/she will be attached with one supervisor or guide.

### **Skill Enhancement Course (SEC)**

**SEC-1: Public health and epidemiology**

**Credit 02**

**SEC-1T: Public health and epidemiology**

### **Unit I: Principles of Epidemiology in Public Health:**

Overview of epidemiology methods used in research studies to address disease patterns in community and clinic-based populations, distribution and determinants of health-related states or events in specific populations, and strategies to control health problems

### **Unit II: Statistical Methods for Health Science**

Analysis and interpretation of data including data cleaning, data file construction and management; implementation of analytic strategies appropriate for the type of data, study design and research hypothesis; parametric and nonparametric methods, measures of association, Linear and Logistic regression, Generalized Linear Modeling, and Survival analysis

### **Unit III: Environmental Health**

Effects of biological, chemical, and physical agents in environment on health (water, air, food and land resources); ecological model of population health; current legal framework, policies, and practices associated with environmental health and intended to improve public health

### **Unit IV: Psychological, Behavioural, and Social Issues in Public Health**

Cultural, social, behavioural, psychological and economic factors that influence health and illness; behavioural science theory and methods to understanding and resolving public health problems; assess knowledge, attitudes, behaviours towards disease and patient compliance to treatment.

### **Unit V: Management of Health Care Program and Service Organizations**

Techniques and procedures for monitoring achievement of a program's objectives, generating evidence of program effectiveness, assessing impacts in public health settings; evaluate framework that leads to evidence-based decision-making in public health.

Organizational principles and practices including organizational theory, managerial role, managing groups, work design, and organization design at primary, secondary, and tertiary levels of care

### **Unit VI: Epidemiology of disease**

Contemporary methods for surveillance, assessment, prevention, and control of infectious and chronic diseases, disabilities, HIV/AIDS; understanding etiology; determining change in trend over time; implementation of control measures

### **Suggested Reading**

**Credits 02**

### **SEC2T: Tourism Anthropology**

**Unit I:** Tourism- aspects and prospects, anthropological issues and theoretical concerns, tourist as ethnographer; pilgrimage and Authenticity Issues

**Unit II:** Interconnections between tourism history and the rise of the socio-cultural study of tourism including temporary migration, colonial exploration, pilgrimage, visiting relatives, imagined and remembered journeys, and tourism

**Unit III:** understand the implications of tourism as a major mechanism of cross-cultural interaction; role of symbolism, semiotics, and the imagination in tourism; tourism and the commodification of culture or cultural degradation

**Unit IV:** understand the global and local political economy of contemporary tourism, particularly in relation to international development; explore dynamic relationships between heritage-making enterprises, revival and preservation projects, the international

flow of capital; role of museums and other branches of the cultural industries" (including music, art, and food) in tourism economies; tourism and global mobility; Ecotourism and sustainable development

**Unit V:** New Directions in the Anthropology of Tourism: Globalization, Tourism and Terrorism; applied aspects of anthropology in tourism development and planning.

### **Suggested Readings**

14. Hitchcock. (1997). *Cultural, Economic and Environmental Impacts of Tourism among the Kalahari*. In Chambers E (eds.) *Tourism and Culture: An Applied Perspective*. SUNY Press.

### **Generic Elective (GE)**

**[Interdisciplinary for other department]**

**GE-1 : Nutrition and Health**

**Credits 06**

**GE1 T : Nutrition and Health  
Theory**

**Credits 04**

- Unit-I:** Definition of Health and illness; measuring health; morbidity, mortality and epidemiology.
- Unit-II:** Women's health; family planning; reproductive health.
- Unit-III:** Concept of Nutrition; malnutrition – over & under; Assessment of nutritional status.
- Unit-IV:** Role of vitamins and minerals in health; concept of balanced diet.

**GE1 P : Nutrition and Health**

**Credits 02**

**Practical**

A student should assess the nutritional status of at least 10 individuals by the following parameters:

- a) BMI; b) Waist circumference; c) Waist hip ratio; d) Mid-upper arm circumference.

**GE-2 : Research Methodology**

**Credits 06**

**GE-2T: Research Methodology**

- Unit-I:** Concept of Research; research design; literature review; formulation of research problem; hypothesis; Quantitative & qualitative research.
- Unit II:** Fieldwork in Anthropology; Ethnographic approach, cultural relativism; ethnocentrism emic & etic perspectives; rapport establishment.
- Unit III:** Methods and techniques of data collection; surveys; questionnaire; observation method, interview, case study, gemology.
- Unit IV:** Basic statistics: Types of variable, Graphical representation, descriptive statistics in measurements of central tendency, deviations; skewness & curtosis; normal distribution. Inferential Statistics: Students t-test, Chi-square, correlation.
- Unit V:** Ethical issues in research. Concept of consent (Informed and verbal), Privacy & confidentiality, Plagiarism, conflict of interest.

## **GE-3: Tribes and Culture**

**Credits 06**

### **GE3T: Tribes and Culture**

**Unit I:** Concept of tribe and schedule tribe. Characterisation of tribe, Classification of tribal population in India: economy, occupation and religion.

**Unit II:** Acculturation and assimilation issues.  
Developmental and schemes and its effect on tribal life.

**Unit III:** Social organisation, material culture, political organisation of different tribes of West Bengal.

**Unit IV:** Tribal movements, tribal economy and forest, Forest policies migration and occupational shift, Displacement.

**Unit V:** Tribe-caste continuum, Constitutional safeguards.

## **GE-4: Introduction to prehistoric Anthropology**

**Credits 06**

### **GE4T: Introduction to prehistoric Anthropology Theory**

**Credits 04**

**Unit I:** Methods of studying Prehistory  
Different dating methods : absolute & relative

**Unit II:** Pleistocene epoch, Quaternary period, Glacial & Interglacial, Pluvial and Inter Pluvial.

**Unit III:** Tool making technology, use of tools in different time period, Tool typology.

**Unit IV:** Prehistoric cultures : Paleolithic Mesolithic, Neolithic Prehistoric sites of India; Indus Valley Civilization .

### **GE4P: Introduction to prehistoric Anthropology (Practical)**

**Credit 02**

Drawing and identification of Prehistoric tools

- a) Core Tool
- b) Flake tool
- c) Microliths
- d) New lithic tool

List of Core Course (CC)

DSC-1A: Foundation of anthropology  
DSC-1B: Biological anthropology  
DSC-1C: Archaeological anthropology  
DSC-1D: Social-cultural anthropology

Discipline Specific Electives (DSE)

DSE-1: Human Growth and Development  
Or  
DSE-1: Human Genetics  
Or  
DSE-1: Advanced Human Genetics  
Or  
DSE-1: Advanced Forensic Anthropology  
DSE-2: Tribal Cultures of India  
Or  
DSE-2: Social movements among Indian tribes  
Or  
DSE-2: Environment and Anthropology  
Or  
DSE-2: Heritage Management

Skill Enhancement Courses (SEC)

SEC-1: Tourism Anthropology  
Or  
SEC-1: Forensic Anthropology  
Or  
SEC-1: Demographic Anthropology  
SEC-2: Media Anthropology  
Or  
SEC-2: Visual Anthropology  
Or  
SEC-2: Fashion Anthropology  
SEC-3: Public Health and Epidemiology  
Or  
SEC-3: Medical Anthropology  
Or  
SEC-3: Physiological Anthropology  
SEC-4: Ethnographic Research Methodology  
Or  
SEC-4: Anthropology of Development  
Or  
SEC-4: Earliest Evidences of Urbanisation in India

Core Courses (CC)

**DSC-1A (CC-1): Foundation of anthropology** **Credits 06**

**DSC1AT (C1T): Foundation of anthropology** **Credits 04**

**Course Contents:**

**Unit-I:** Anthropology- Definition, Objective, Aim & Scope; Major Branches of Anthropology—Biological, Social-Cultural, Archaeological; Relation of Anthropology with other disciplines (e.g. Life-sciences, Physical Science, Medical Science, ergonomics, Arts (Humanities))

**Unit–II:** Biological Anthropology—Concept, Aim, Scope, Sub-Branches, Development of Biological anthropology

**Unit–III:** Social–Cultural Anthropology- Concept, Aim & Scope, Sub-branches, Development of Social–Cultural Anthropology, Relation with other Social Sciences, Social-Cultural Anthropology—British and American School

**Unit-IV:** Archaeological Anthropology—Definition, Aim and Scope; Relation between Archaeological Anthropology and Palaeoanthropology, Prehistory and Protohistory

**Unit- V:** Uniqueness of Anthropology—Holism, Comparative Method, and Fieldwork

**Unit –VI:** Development of Anthropology (in brief), Applied and Action Anthropology

**DSC1AP(C1P): Practical** **Credits 02**

Identification of human bones- Skull bones (Frontal, Parietal, Occipital, Temporal, Maxilla, Sphenoid, Zygoma, and Mandible); Long bones with side determination (Humerus, Radius, Ulna, Femur, Tibia, Fibula), Scapula, Clavicle, Hip Bone.

**Suggested Readings:**

- Jurmain R., Kilgore L., Trevathan W., Ciochon R.L. (2012). Introduction to Physical Anthropology. Wadsworth Publ., USA
- Kroeber A. L. (1948). Anthropology. Oxford & IBH Publishing Co., New Delhi.
- Stanford C., Allen J.S. and Anton S.C. (2010). Exploring Biological Anthropology. The Essentials. Prentice Hall Publ, USA.
- Statement on Race: Annotated Elaboration and Exposition of the Four Statements on Race (1972). Issued by UNESCO. Oxford University Press.

**DSC-1B (CC-2): Biological anthropology**

**Credits:06**

**DSC1BT (C2T): Biological anthropology**

**Credits 04**

**Course Contents:**

**Unit-I:** Cell - Definition, Type, Structure & Functions, Mitosis, Meiosis, Oogenesis, Spermatogenesis

**Unit-II:** Theories of Human Evolution- Lamarckism, Darwinism, Synthetic Theory. Organic evolution.

**Unit-III:** External morphological features of Man; Evolutionary changes in Human Skeleton and Human Morphology- Bipedalism and Erect Posture, Brain Development, Development of Grip.

**Unit-IV:** The Biological Basis of Inheritance- Human Chromosome (Structure and Shape), Human Karyotype - Denver's system, Numerical Chromosomal Aberrations/Abnormalities (Causes and manifestation): Down's syndrome, Turner's syndrome, Klinefelter's Syndrome

**Unit-V:** Mendelian principles its explanation and application in man; Mendelian Inheritance in Man- autosomal dominant, autosomal recessive, sex chromosomal inheritance, X-linked dominant, X-linked recessive, Y-linked, Polymorphic character in man

**Unit- VI:** Definition (Mivert) and general characteristic features of order Primates; Classification of the order Primates –Simpson (1945) and modified by Simons (1971) with features and examples up to family; Platyrrhine and Catarrhine monkeys- distribution, characteristics and differences

**Unit-VII:** Anthropoid apes: Features, classification, distribution; skeletal comparison of anthropoid apes with that of man

**Unit –VIII:** Earlier hominid - A. afarensis and A. africanus; H.habilis, H. erectus (Java and Peking variety); Neanderthal (Lachapelle-aux-saint and Tabun); Modern Homo sapiens- Cro-Magnon; Hominization process

**DSC1BP (C2P): Practical**

**Credits 02**

**I.CRANIOMETRY:**

i) Maximum cranial length, ii) Maximum cranial breadth, iii) Least Frontal breadth, iv) Maximum bizygomatic breadth, v) Nasal length, vi) Nasal breadth, vii) Superior Facial Length, viii) Frontal arc, ix) Parietal arc, x) Occipital arc, xi) Frontal Cord, xii) Parietal Cord, xiii) Occipital Cord, xiv) Horizontal Circumference of the Cranium.

**II. SOMATOMETRY (on three subjects)**

A. Measurement on head and face (Cephalometry) -

i) Maximum head length, ii) Maximum head breadth, iii) Least frontal breadth, iv) Maximum Bi-zygomatic breadth, v) Bi-gonial breadth, vi) Nasal length, vii) Nasal breadth, viii) Nasal depth, ix) Morphological superior facial length, x) Morphological total facial length. xi) Outer bi-orbital breadth, xii) Inner bi-orbital breadth, xiii) Inter orbital breadth, xiv) Length of ear.

B. Measurements on trunk and limbs-

i) Height vertex, ii) Height tragus, iii) Height acromion, iv) Sitting height Vertex, viii) Bi-acromial diameter, ix) Hand length, x) Hand breadth, xi) Foot length, xii) Foot breadth, xiii) Body weight

III. INDICES

i) Cephalic index, ii) Nasal index, iii) Facial index, iv) Jugo-frontal index, v) Body mass index (BMI)

IV. GENETIC TESTS (On three subjects)

i) Ability of testing PTC, Test for colour blindness, Examination of ABO & Rh blood group,

**DSC-1C (CC-3) : Archaeological anthropology**

**Credits 06**

**DSC1CT (C3T): Archaeological anthropology**

**Credits 04**

### **Theory**

#### **Course Contents:**

**Unit I:** Concept and scope of Archaeological Anthropology, Relation with other disciplines, Methods of studying Archaeological Anthropology

**Unit II:** Geological time scale, geochronology of Quarternary period: Pleistocene and Holocene, Villafranchian, Glacial and Interglacial, Pluvial and Inter-Pluvial, Different types of geo-climatic events, Importance of studying Pleistocene in Archeology.

**Unit III:** Reconstructing the Past - dating method: Absolute dating (C14, K-AR, Dendrochronology, TL) and Relative dating (Stratigraphy, River Terrace).

**Unit IV:** Understanding Culture: Concept of Culture in Prehistory—Three Age System, artifacts and tool (core tool, flake tool and flaking); Typology (structure, function and technique of tool manufacture) and cultural nomenclature.

**Unit V:** Lithic culture in India – (i) Lower Palaeolithic, (ii) Middle Palaeolithic, (iii) Upper Palaeolithic, (iv) Mesolithic culture and, (v) Neolithic culture

#### **DSC1CP (C3P): Practical**

Typo-technological Analysis of Prehistoric Tools – Drawing, Identification and Interpretation of the following tool Types: 1. Core Tool 2. Flake Tool. 3. Blade Tool 4. Microliths. 5. Neolithic Tool

#### **Suggested Readings:**

- Allchin and Allchin (1993). *The Rise of Civilization of India and Pakistan*. Cambridge University Press
- Bhattacharya D.K. (1978). *Emergence of Culture in Europe*, Delhi, B.R. Publication.

- Champion et al. (1984). *Prehistoric Europe*. New York, Academic Press.
- Fagan B.M. (1983). *People of Earth: An Introduction*. Boston, Little, Brown & Company.
- Okley KP.1967. Man The tool Maker. Trustees of the British Museum.
- Phillipson D. W. (2005). *African Archaeology*. Cambridge, Cambridge University Press.
- Sankalia H.D. (1964). *Stone Age Tools*. Poona Deccan College.
- Sankalia H.D. (1974). *Prehistory and Protohistory of India and Pakistan*. Poona, Deccan College
- Sankalia H.D. (1982). *Stone Tool Type and Technology*. Delhi, B.R.Publication

**DSC-1D (CC- 4) : Social-cultural anthropology**

**Credits 06**

**DSC1DT(C4T) : Social-cultural anthropology**

**Credits 04**

**Course Contents:**

**Unit I:** Basic concept, definition, scope and relevance of social anthropology; Relationship of social anthropology with other disciplines (Sociology, History, Political Science, Psychology, Folk lore)

**Unit II:** Concepts of Society; Status and Role; Community, Group, Association; Social System - Social Structure and Organization, Social Stratification, Social Control.

**Unit-III:** Culture: concept, features and function; Aspects of culture: Culture universal, Cultural relativism, cultural integration, enculturation, process of culture change: diffusion and acculturation.

**Unit IV:** Unit of Social Structure and Organization: Family (types, basic structure, functions, factors associated with the changes in joint family); Marriage (forms and functions; rule of marriage - Hypergamy, Hypogamy, Endogamy and Exogamy; Ways of acquiring mates Prescribed; Proscribed; Preferential marriage and Incest); Kinship (Concept, Kinship Typology, Kinship Terminological system).

**Unit- V:** Religion (concept, function, theories), Magic (concept, types, function, practitioners), Economic anthropology (concept, function, production-subsistence strategies, distribution), Political anthropology (concept, function, types of political organization)

**Unit-VI:** Essential theories: Evolutionism - Unilinear evolution, neo evolution and Multi-linear evolution; Diffusionism: British, German and American schools - cultural relativism and Historical Particularism (emergence of fieldwork tradition in Anthropology); Culture and Personality approaches; Functionalism; Structural – functionalism, structuralism

**Unit-VII:** Ethnography and fieldwork; survey; qualitative and quantitative methods; comparative and historical Methods; Research methodology: Review of literature, conceptual framework, formulation of research problem/hypothesis, selection of area, sampling, rapport establishment, data collection, field note, data analysis and report writing; Ethical issues in social research; Tools and techniques of data collection: questionnaire and interview schedule, Observation, Interview, Focused Group Discussion, key informant, Case Study, Genealogy.

**DSC1DP (C4P): Practical**

**Credits 02**

1. Make a brief field report/account on any relevant social-cultural dimension/problem/issue grounded on basic research methodology.
2. Construction of genealogy and documentation of rites-de-passage of any local ethnic group.

**Suggested Readings:**

- Beattie J. (1964). *Other Cultures*. London: Cohen & West Limited.

**DISCIPLINE SPECIFIC ELECTIVE (DSE)**

**DSE-1: Human Growth and Development** **Credits 06**

**DSE1T: Human Growth and Development** **Credits 04**

**Course Contents:**

Introduction to human growth and development. Prenatal growth. Post natal growth. Factors affecting growth. Methods of studying growth: Cross sectional, longitudinal, and mix cross sectional, Growth curves. Human nutrition: food, diet, nutrition and metabolism (definitions only); the basic nutrients- micro and macro nutrients, their sources, and utility, Malnutrition: over and under nutrition.

**DSE1P: Practical** **Credits 02**

Project/ Report on any chosen topic from this DSE.

**Or**

**DSE-1: Human Genetics** **Credits 06**

**DSE1T: Human Genetics** **Credits:04**

**Course Contents:**

**Unit I:** Structure, Function and Inheritance of the human genome- gene, DNA structure and replication, DNA repair and recombination, gene expression, coding and non-coding region

**Unit II:** Expression of genetic information: from Transcription to Translation – the relationship between genes and protein, transcription and RNA processing, encoding genetic information, decoding the codons: the role of transfer RNAs

**Unit III:** Genomic Variation: Genomic Polymorphisms (SNPs, VNTR); haplotypes and haplogroups; genotype-phenotype correlations.

**Unit IV:** Methods of Genetic Study in Human: Twin and co-twin method; Pedigree and Family method (May be included); Chromosomal aberrations/ abnormalities (Down's syndrome, Turner's syndrome, Klinefelter's syndrome) concept of non-mendelian inheritance and complex diseases.

**Unit V:** Genomic Diversity & Human Evolution People of the Indian Subcontinent: Evidence from mtDNA and Y-chromosome; evolutionary genetics; Molecular evolution; DNA sequence variation and human origins

**DSE1P: Practical****Credits:02**

1. DNA Extraction from tissue
2. DNA Quantification, Aliquoting and sample preparation

**Suggested Readings:**

- Strachan T and Read AP. (2004). Human Molecular Genetics. Garland Science
- Brown TA. (2007). Genomes. Garland Science.

**Or****DSE-1: Advanced Human Genetics****Credits 06****DSE1T: Advanced Human Genetics****Credits 04****Course Contents:**

History of Genetics, Paradigms of Human Genetics; Mendelian genetics, , DNA and RNA structure and DNA replication, DNA repair, and recombination, gene expression, coding and non-coding region, Nuclear and Mitochondrial DNA, Expression of protein, transcriptions, transcription (protein synthesis), Outline concept of epigenetics in human genetics, Cytogenetics; concept of karyotype, Banging (G banding) and high resolution FISH. Concept of point mutation; Family study; pedigree analysis, concept of dominant, recessive and co-dominant inheritance. Penetrance and expressivity; Sex linkage (Dominant and recessive) and sex influenced traits.

Electrophoresis, PCR technology and sequencing (Concept and outline)

**DSE1P: Practical****Credits 02**

Project/ Report on any chosen topic from this DSE

**Or**

**DSE-1: Advanced Forensic Anthropology****Credits 06****DSE1T: Advanced Forensic Anthropology****Credits 04****Course Contents:**

Introduction to forensic Anthropology and its relationship with forensic science, Application of Forensic Anthropology, introduction to Dermatoglyphics, History and development, scope and application, pattern types are pattern area, Palm print, triradii and angle, types of finger prints, Plastic, visible and latent prints, conventional and modern methods of development of finger prints-Silver nitrate, powder method, laser technique, Concept of hair features in Forensic Anthropology, techniques of analyzing hair in Forensic anthropology, basic Human Skeletal Biology, identification of human skeletal remains, ancestry, age, sex and stature estimation from bones.

**DSE1P: Practical****Credits 02**

Project/ Report on any chosen topic from this DSE

**Suggested Readings:**

- Cummings, H. and Midlo, C. (1961). Finger prints, palms and soles: An Introduction to Dermatoglyphics. (vol. 319). New York: Dover Publ.

## SKILL ENHANCEMENT COURSE (SEC)

**SEC-1 : Tourism Anthropology**

**Credits 02**

**SEC1T : Tourism Anthropology**

**Credits 02**

### **Course Contents:**

**Unit I:** Tourism- aspects and prospects, anthropological issues and theoretical concerns, tourist as ethnographer; pilgrimage and Authenticity Issues.

**Unit II:** Interconnections between tourism history and the rise of the socio-cultural study of tourism including temporary migration, colonial exploration, pilgrimage, visiting relatives, imagined and remembered journeys, and tourism.

**Unit III:** understand the global and local political economy of contemporary tourism, particularly in relation to international development; explore dynamic relationships between heritage-making enterprises, revival and preservation projects, the international flow of capital; role of museums and other branches of the cultural industries" (including music, art, and food) in tourism economies; tourism and global mobility; Ecotourism and sustainable development.

**Unit IV:** New Directions in the Anthropology of Tourism: Globalization, Tourism and Terrorism; applied aspects of anthropology in tourism development and planning.

### **Suggested Readings:**

- Chambers E. (2000). *Native Tours: The Anthropology of Travel and Tourism*. Prospect Heights: Waveland.
- Crick M. (1995). *The Anthropologist as Tourist: An Identity in Question*. In Lanfant MF, Allcock JB, Bruner EM (eds.) *International Tourism: Identity and Change*. London: Sage. pp. 205-223.

**SEC-2: Media Anthropology**

**Credits 02**

**SEC2T: Media Anthropology**

**Credits 01**

**Course Contents:**

**Unit I:** Theoretical Foundations: Introduction to Media Anthropology; Intellectual Antecedents

**Unit II:** Audiences, Consumption and Identity Formation: The Social and Material Life of Cinema; Television and the Cultural Politics of Nation; Gender and Subjectivity; the Nation and Temporality; Media as Material Objects.

**Unit III:** The Cultural Work of Mass Media Production

**Unit IV:** The Social Sites of Film and TV Production; the Exigencies of Commercial Filmmaking; the Constraints of Public Television Production.

**Unit V:** Producing Reality – Journalism and Advertising; News as Social Practice; the Local and the Global in Advertising.

**Unit VI:** Small Media: Materiality, Circulation, Everyday Life & Social Transformations; Indigenous Media and Cultural Activism.

**SEC2P: Practical**

**Credits 01**

Make a brief report / project on any one dimension of mass media sector and give your assessment.

**Suggested Readings:**

- Rothenbuhler, Eric W; Coman, Mihai. Media anthropology. 2005. California, Sage.

**Or**

**SEC-2: Visual Anthropology**

**Credits:02**

**SEC2T: Visual Anthropology**

**Course Contents:**

**Unit- 1:** Introduction to Visual Anthropology, Visual Culture, Photographic and Digital Media: Still, Interactive and Moving.

**Unit- 2:** Anthropology and Images: Ethnophotography and ethnographic films and mass media; Theories of representation, modern media and political advocacy.

**Unit- 3:** Early Ethnographic Photography: Contexts and Trends. Anthropology of Art and Aesthetics

**Unit-4:** Ethnographic Films: Theoretical issues concerning ethnographic film, ethical dimensions of ethnographic film

**Suggested Readings:**
